Contents Volume 163

1 Editorial: Financial modelling and risk management
R.L. D'Ecclesia
5 Measures of risk
G. Szegö
20 How did the Fed react to the 1990s stock market bubble? Evidence from an extended Taylor rule
M.D. Hayford and A.G. Malliaris
30 The LIBOR model dynamics: Approximations, calibration and diagnostics
D. Brigo, F. Mercurio and M. Morini
52 On pricing of credit spread options
R. Giacometti and M. Teocchi
65 An integrated pricing model for defaultable loans and bonds
M. Onorato and E.I. Altman
83 Credit risk analysis of mortgage loans: An application to the Italian market
C. Mari and R. Renò
94 The informational content of subordinated debt and equity prices in the presence of bankruptcy costs
E. Nivorozhkin
102 Runs tests for assessing volatility forecastability in financial time series
F. Bellini and G. Figà-Talamanca
115 Optimal portfolio selection and dynamic benchmark tracking
A.A. Gaivoronski, S. Krylov and N. van der Wijst
132 Speculative trading in mean reverting markets
G. Carcano, P. Falbo and S. Stefani
145 Testing robustness in calibration of stochastic volatility models
M.L. Guerra and L. Sorini
154 Extensions of the Ho and Lee interest-rate model to the multinomial case
J. Abaffy, M. Bertocchi and A. Gnudi
170 Indeterminacy in portfolio selection
M.R. Simonelli
177 Hedging effectiveness of stock index futures
J. Laws and J. Thompson
192 The pricing of options on an interval binomial tree. An application to the DAX-index option market
S. Muzzioli and C. Torricelli
201 A GARCH option pricing model with α-stable innovations
C. Menn and S.T. Rachev
210 Functional data analysis for clients segmentation tasks
A. Laukaitis and A. Račkauskas

doi:10.1016/S0377-2217(04)00727-1

217 Dynamic portfolio optimization: Time decomposition using the Maximum Principle with a scenario approach
D. Barro and E. Canestrelli
230 Selecting an optimal portfolio of consumer loans by applying the state preference approach
F.M. Paris
242 The Asian crisis and calendar effects on stock returns in Thailand
K. Holden, J. Thompson and Y. Ruangrit
253 Bad news and Dow Jones make the Spanish stocks go round
N. Blasco, P. Corredor, C. Del Rio and R. Santamaría
276 Theory of portfolios: New considerations on classic models and the Capital Market Line
S. Cruz Rambaud, J. García Pérez, M.A. Sánchez Granero and J.E. Trinidad Segovia
284 Book review

287 Following the traces: An introduction to conjoint measurement without transitivity and additivity
D. Bouyssou and M. Pirlot
338 Rank inclusion in criteria hierarchies
A. Salo and A. Punkka
357 Representing the strengths and directions of pairwise comparisons
D. Hartvigsen
370 A decisiveness index for simple games
F. Carreras
388 Providing support for decisions based on time series information under conditions of asymmetric loss
P. Goodwin
403 Understanding local ignorance and non-specificity within the DS/AHP method of multi-criteria decision making
M.J. Beynon
418 Uneven allocation of elements in linear multi-state sliding window system
G. Levitin
434 Parametric nonlinear programming approach to fuzzy queues with bulk service
S.-P. Chen
445 Optimal burn-in time to minimize the cost for general repairable products sold under warranty
S.-H. Sheu and Y.-H. Chien
462 On the construction of mutual fund portfolios: A multicriteria methodology and an application to the Greek market of equity mutual funds
K. Pendaraki, C. Zopounidis and M. Doumpos
482 A unified framework for approximation of general telecommunication networks
M. Vroblefski, R. Ramesh and S. Zionts
503 Design for optimized multi-lateral multi-commodity markets
B. Bourbeau, T.G. Crainic, M. Gendreau and J. Robert
530 Optimal pricing and quantity of products with two offerings
M. Khouja and S.S. Robbins
545 Allocation of attention within venture capital firms
D.A. Shepherd, M.J. Armstrong and M. Lévesque
565 A note on invex problems with nonnegative variable
M. Galewski
569 Open shops with jobs overlap—revisited
J.Y.-T. Leung, H. Li, M. Pinedo and C. Sriskandarajah

573 Editorial—in honour of Bernhard Fleischmann
H. Stadtler, T.G. de Kok and H. Meyr
575 Supply chain management and advanced planning—basics, overview and challenges
H. Stadtler
589 Supply chain management in forestry—case studies at Södra Cell AB
D. Carlsson and M. Rönnqvist
617 Integrating process optimization and inventory planning in cutting-stock with skiving option: An optimization model and its application
C. Arbib and F. Marinelli
631 Shipment planning at oil refineries using column generation and valid inequalities
J.A. Persson and M. Göthe-Lundgren
653 Optimal shared-savings contracts in supply chains: Linear contracts and double moral hazard
C.J. Corbett, G.A. DeCroix and A.Y. Ha
668 Negotiation-based collaborative planning between supply chains partners
G. Dudek and H. Stadtler
688 The effect of remanufacturing on procurement decisions for resellers in secondary markets
A. Robotis, S. Bhattacharya and L.N. Van Wassenhove
706 Linear programming models with planned lead times for supply chain operations planning
J.M. Spitter, C.A.J. Hurkens, A.G. de Kok, J.K. Lenstra and E.G. Negenman
721 An analytical study of the $Q(s,S)$ policy applied to the joint replenishment problem
C. Nielsen and C. Larsen
733 Using repair priorities to reduce stock investment in spare part networks
A. Sleptchenko, M.C. van der Heijden and A. van Harten
751 An alternative to safety stock policies for multi-level rolling schedule MRP problems
N. Dellaert and J. Jeunet
769 Value at risk and inventory control
C.S. Tapiero
776 An EOQ model for perishable items under stock-dependent selling rate and time-dependent partial backlogging
C.-Y. Dye and L.-Y. Ouyang
784 Factors which influence decision making in new product evaluation
M. Ozer
802 A model for analyzing multi-channel distribution systems
A. Alptekinoğlu and C.S. Tang
825 Manufacturing lead-time rules: Customer retention versus tardiness costs
S.A. Slotnick and M.J. Sobel
857 Contents Volume 163
